FOR IMMEDIATE RELEASE

FuzzyCo Announces Run of Neutrino Project: The Instant Movie

CHICAGO, IL, SEPT 5, 2008—FuzzyCo announces their upcoming run of their hit show Neutrino Project: The Instant Movie, Wednesday nights at 8:00pm at The ComedySportz Theatre (929 W. Belmont). After a three year hiatus, FuzzyCo is thrilled to be bringing their brand of improvised filmmaking back to Chicago.

Neutrino Project: The Instant Movie is an extraordinary theatre/film hybrid that creates an original, 45-minute movie in the time it takes the audience to watch it. At the beginning of the show, the cast takes objects from audience members to be used in the show. Multiple camera crews and actors then race outside to various locations to film scenes inspired by those objects. Moments later, the audience inside the theater sees an uninterrupted movie that has been shot, edited, and scored, and contains the items they loaned the cast.

Cast and crew members include Patrick Brennan, Josh Chamberlin, Sean Cusick, Becky Eldridge, Jen Ellison, Lisa Fairman, Lillie Frances, Fuzzy Gerdes, Brian Goodman, Megan Goodman, Shaun Himmerick, Greg Inda, Cesar Jaime, Jin Kim, Erica Reid, Michael D. Starceovich, and Andrea Swanson.

The Neutrino Project will run Wednesday nights September 17 through November 19, 2008 at 8:00pm at the ComedySportz Theatre, 929 W. Belmont, Chicago, IL 60657 Admission is \$10. For more information, call 773.549.8080 or visit www.neutrinoproject.com.

“Top 5 Innovative Productions” - Chicago Newcity

“This madcap fusion of nearly instantaneous filmmaking and anything-goes improv revels in the joys of spontaneous creation”

Nick Green - Chicago Reader

“a fresh, funny and remarkably inventive show”, “an instant blast”, “will become a big, deserving, late-night hit” - Chris Jones - Chicago Tribune
